Subject RE: ou3 call on Wed

In the spirit of "sharing" information, I thought Paul/Carlos might add value/gain benefit when talking about contaminant transport and hydrodynamic evaluation, particularly where this should be a relatively short meeting. I thought it would also be a good forum to get the status of their modeling effort as a method to keep them "on track". I can not include them if you prefer?

I did - though wasn't sure why you have Paul Schreoder and Carlos Ruiz on the distribution...they're doing the CAD cell modeling NOT the food chain modeling

Wed RE: ou3 call on

I just sent out a reminder to all. Did you receive it? Tx, Bob

Bob - just dbl checking,,,we're on for a 9:30 am call this Wed 7/1
to
update the ou3 folks on the food chain modeling, yes? If so it
might
make sense to send out a reminder to everyone participating given the
scheduling back and forth that happened. Thanks - Dave
